

HTM7

B&W
Bowers & Wilkins

The HTM7 utilizes a similar driver line-up to the 705 and is timbre matched to the other speakers in the range for use in a 700 Series-based home theatre installation. For its centre channel role, the cabinet is wider and lower to give a better aspect when placed on top of or immediately below a television. Naturally, the drivers are magnetically shielded to avoid picture distortion. Threaded inserts in the base of the speaker are provided to enable a direct screw fixing to the FS-700 speaker stand.

Description: 2-way vented-box system
Frequency range(-6dB): 46Hz and 50kHz
Power handling: 120W into 8Ω
Sensitivity: 91dB spl (2.83V, 1m)

Impedance: 8Ω (minimum 4.6Ω)
Dimensions: H 306mm W 450mm D 289mm
H 12.1" W 17.7" D 11.4"
Weight: 12.5 kg / 28 lbs.
